257/1-C Ahmed Nagar, Mirpur-1,
Dhaka, Bangladesh

CAREER OBJECTIVES

Professional **Full-Stack Web Developer (Laravel-focused)** with over **1 year of industry experience**, seeking a challenging role to design, develop, and maintain scalable web applications. Skilled in backend development, API integration, database design, and collaborative project workflows, with a strong commitment to clean code, performance, and continuous learning.

PROFESSIONAL SUMMARY

- Full-Stack Developer with strong expertise in **Laravel and PHP (OOP)**
- Over **1 year of professional experience** working on production-level applications
- Experienced in **RESTful API development, database design, and system maintenance**
- Strong problem-solving ability with a focus on secure and optimized server-side logic
- Comfortable working independently or in team-based, agile environments

KEY SKILLS

- Laravel Full-Stack Development
- Backend Development & MVC Architecture
- RESTful API Development & Integration
- Database Design & Optimization (MySQL)
- Authentication & Role-Based Access Control
- Server-Side Security & Performance Optimization
- Bug Fixing, Debugging & Application Maintenance
- Git Version Control & Team Collaboration

SKILLS & ABILITIES

Language Proficiency
- Bangla (Native)
- English (Fluent)

Mobile & Additional Exposure
- Flutter (Basic – mobile app development)
- Android Studio (Basic – build, run, testing)
- React (Basic exposure)

Design (Supportive Skill)
- Adobe Photoshop, Illustrator
- Canva
- UI Graphics, Banners, Social Media Assets

Operating System
Windows.

Backend (Core Strength)
- PHP (Object-Oriented Programming)
- MySQL, SQL
- RESTful APIs, JSON
- Authentication, Authorization, RBAC
- Query Optimization & System Maintenance

Frontend
- HTML5, CSS3
- Bootstrap
- JavaScript, jQuery, AJAX
- Blade Templating

Tools & Platforms
Git & GitHub, Postman, Android Studio (Basic – build, run, testing), Office 365

PROFESSIONAL EXPERIENCE

Software Developer (Full-Stack)
Innovation and Information System Limited - (February 2025 – Present)
- Developed and maintained Laravel-based web applications following MVC architecture
- Designed and integrated RESTful APIs for internal and external system communication
- Implemented authentication, authorization, and role-based access control
- Fixed production-level bugs and improved system performance and security
- Collaborated with frontend developers, QA teams, and project managers
- Maintained databases and optimized queries to enhance application efficiency

Projects

Construction Management System (Enterprise-Level)
A complete construction company management system capable of handling end-to-end operations.
Role: Full-Stack Laravel Developer
Technologies: Laravel, PHP (OOP), MySQL, RESTful APIs, jQuery, AJAX
Key Features:
- Project, site, and contractor management
- Material requisition, purchase, and inventory tracking
- Employee, labor, and payroll management
- Expense tracking, reporting, and approval workflows
- Role-based access control and secure authentication
- Real-time operational reports for management decision-making

E-Learning Management System (LMS)
A web-based learning platform for managing courses, students, exams, and results.
Role: Full-Stack Laravel Developer
Technologies: Laravel, MySQL, RESTful APIs, JavaScript, AJAX
Key Features:
- Course, lesson, and content management(full classroom management)
- Student enrollment and progress tracking
- Online exams, quizzes, and result processing
- User roles (Admin, Instructor, Student)
- Secure authentication and performance optimization

Restaurant Management System
A complete restaurant operation system covering sales, orders, and inventory.
Role: Full-Stack Laravel Developer
Technologies: Laravel, MySQL, JavaScript, AJAX
Key Features:
- Order management and billing system
- Inventory and stock control
- Daily sales and profit reports
- Role-based staff access (Admin, Cashier, Manager)
- System maintenance and performance improvements

E-Commerce Management System
A scalable e-commerce platform for managing products, orders, and customers.
Role: Full-Stack Laravel Developer
Technologies: Laravel, MySQL, RESTful APIs
Key Features:
- Product, category, and order management
- Customer management and order tracking
- Payment workflow integration (logical structure)
- Admin dashboard with reports and analytics
- Secure backend operations and bug fixing

Hospital & Store Management Systems
Multiple management systems built for operational efficiency.
Role: Full-Stack Laravel Developer
Technologies: Laravel, MySQL, RESTful APIs
Key Features:
- Patient / product / inventory management
- Billing, reporting, and record maintenance
- Role-based access control
- Performance optimization and maintenance support

EDUCATION

2020 – 2024	**Bachelor's Degree** *Daffodil International University (DIU), Dhaka, Bangladesh* Subject: B.Sc. in CSE CGPA: 3.40
2017 – 2018	**Higher Secondary Certificate (HSC)** *Chittagong Cantonment Public College* Board: Chittagong Subject: Science Result: 3.58
2016 – 2017	**Secondary School Certificate (SSC)** *Cantonment Board High School, Ghatail, Tangail* Board: Dhaka Subject: Science Result: 5.00

PERSONAL ATTRIBUTES

- Strong problem-solving and analytical skills
- Responsible, disciplined, and deadline-oriented
- Team player with good communication skills
- Eager to learn new technologies and best practices

PERSONAL INFORMATION

Name: Md. Shakhawat Hossain
Father's Name: Md. Ashraf Ali
Mother's Name: Umme Salma
Nationality: Bangladeshi
Date Of Birth: 22-12-2001
Marital Status: Single

AVAILABILITY

- **Open to full-time remote work**
- **Flexible working hours as per operational requirements**

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge.
